Defense Technical Information Center

The Defense Technical Information Center (DTIC) serves the DoD community as the largest central resource for DoD and government-funded scientific, technical, engineering, and business related information available today. For more than 60 years DTIC has provided the defense community as well as researchers, scientists, engineers, laboratories, and universities timely access to over 2 million publications covering over 250 subject areas. Our mission supports the nation's warfighter. All visitors can search DTIC's publicly accessible collections and read or download scientific and technical information, using DTIC Online service. DTIC also makes available sensitive and classified information to eligible users who register for DTIC services. http://www.dtic.mil/dtic

About GreyNet Newsletter

This serial publication endeavors to keep information professionals abreast of developments in the field of grey literature. The bimonthly newsletter gives exposure to GreyNet's information resources and frontline activities with special emphasis on the International Conference Series on Grey Literature. The GreyNet Newsletter is licensed by EBSCO Publishing and can also be accessed via the Library, Information Science & Technology Abstracts (LISTA) full-text database. This serial publication is made possible through the support of GreyNet's Associate Members and Corporate Authors: FLICC-FEDLINK of the Library of Congress (USA), INIST-CNRS (France), New York Academy of Medicine (USA), EBSCO Publishing (USA), the National Technical Library (Czech Republic), and Japan Science and Technology Agency (JST).

Grey Literature is a field in library and Information science that deals with the production, distribution, and access to multiple document types produced on all levels of government, academics, business, and organization in electronic and print formats not controlled by commercial publishing i.e. where publishing is not the primary activity of the producing body.
