DANS, New Associate Member

GreyNet welcomes the Data Archiving and Networked Services (DANS-KNAW) as its newest Associate Member

Data Archiving and Networked Services (DANS) promotes sustained access to digital research data. For this purpose, DANS encourages researchers to archive and reuse data in a sustained manner, e.g. through the online archiving system EASY. DANS also provides access, via NARCIS.nl, to thousands of scientific datasets, e-publications and other research information in the Netherlands. In addition, the institute provides training and advice, and performs research into sustained access to digital information. Driven by data, DANS ensures that access to digital research data keeps improving, through its services and by taking part in national & international projects and networks. DANS is an institute of the Royal Netherlands Academy of Arts and Sciences (KNAW) and the Netherlands Organization for Scientific Research (NWO). www.dans.knaw.nl

GL16, Grey Literature Lobby

The Library of Congress, December 8-9, 2014

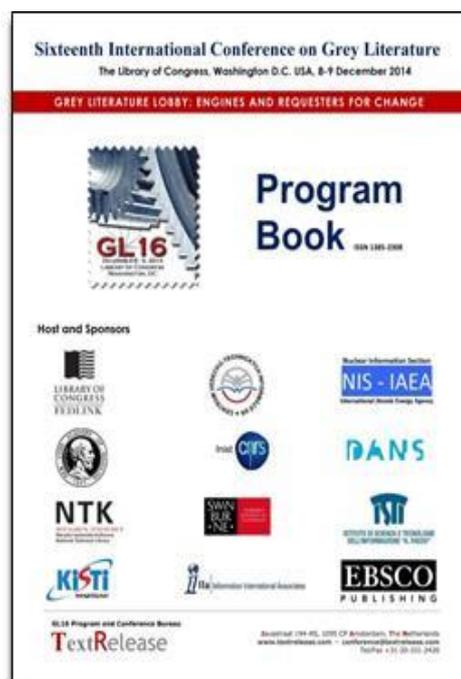

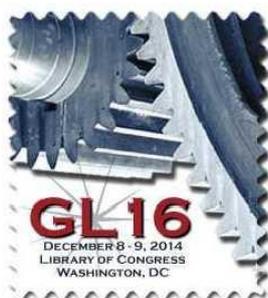

ISSN 1385-2308
ISBN 978-90-77484-24-1

The GL16 Program Book contains results of research and publication by more than 75 (co)authors, who will present 34 conference papers and posters during this year's stateside event. Sixty organizations from fifteen countries worldwide will participate in the 16th International Conference on Grey Literature. This 128 page Program Book brings together the titles of papers, abstracts, author biographical notes, slides, appendices, and sponsored advertisements. As such, the GL16 Program Book is a counterpart to the GL16 Conference Proceedings.

About the GreyNet Newsletter
This serial publication endeavors to keep information professionals abreast of developments in the field of grey literature. The quarterly newsletter gives exposure to GreyNet's information resources and frontline activities with special emphasis on the International Conference Series on Grey Literature. The GreyNet Newsletter is licensed by EBSCO Publishing and can also be accessed via the Library, Information Science & Technology Abstracts (LISTA-FT) full-text database. This serial publication is made possible through the support of GreyNet's Associate Members and Corporate Authors: DANS-KNAW (Netherlands), CVTISR (Slovakia), ISTI-CNR, (Italy), Nuclear Information Section, NIS-IAEA (Austria), FEDLINK, Library of Congress (USA), Inist-CNRS (France), New York Academy of Medicine (USA), EBSCO (USA), National Library of Technology (Czech Republic), and Korea Institute of Science and Technology Information, KISTI.

Grey Literature is a field in library and Information science that deals with the production, distribution, and access to multiple document types produced on all levels of government, academics, business, and organization in electronic and print formats not controlled by commercial publishing i.e. where publishing is not the primary activity of the producing body.
